

Public Notice – Environmental Permit

Purpose of notice: The Department of Environmental Quality (DEQ) is seeking comments and announcing a public hearing on a proposed permit to limit air pollution emitted by a facility in Botetourt County, Virginia. If adopted, the Commonwealth intends to submit the permit or portion thereof as a revision to its State Implementation Plan in accordance with the requirements of § 110(a) of the federal Clean Air Act.

Public comment period: May 7 to June 7, 2007.

Public hearing: The Obenshain Room, DEQ West Central Regional Office, 3019 Peters Creek Road Roanoke, Virginia, at 4:00 p.m. on June 7, 2007. A question and answer period will be held one half hour prior to the beginning of the public hearing.

Permit name: State Operating Permit issued by DEQ, under the authority of the State Air Pollution Control Board.

Name, address and registration number: Roanoke Cement Company, 6071 Catawba Road, Troutville, Virginia 24175, Registration No. 20232.

Description of proposal: The proposed revision consists of the control of emissions of nitrogen oxides (NO_x) to the atmosphere from the Roanoke Cement Company located in Botetourt County, Virginia.

On April 21, 2004 (69 FR 21603), EPA published a final rule, "Interstate Ozone Transport: Response to Court Decisions on the NO_x SIP Call, NO_x SIP Call Technical Amendments, and § 126 Rules," which is commonly referred to as Phase I of the NO_x SIP Call. This rule sets forth the control levels for cement manufacturing facilities, including a 30% reduction from uncontrolled emissions levels. The cement manufacturing facility located in Virginia subject to these requirements is the Roanoke Cement Company facility located in Botetourt County. This facility is also the subject of a non-CTG RACT permit which already requires a 10% reduction in NO_x emissions.

A state operating permit is to be issued as the administrative mechanism to ensure compliance with the Phase I NO_x SIP Call requirements. The permit is being issued pursuant to Article 5 (9 VAC 5-80-800 et seq.) of 9 VAC 5-80 (Permits for Stationary Sources) of state regulations and are federally enforceable upon issuance. The permit will establish emission limits for control of NO_x.

Federal information: This notice is also being given to satisfy the public participation requirements of federal regulations (40 CFR 51.102). Except as noted below, the proposal will be submitted as a revision to the Commonwealth of Virginia SIP under § 110(a) of the federal Clean Air Act in accordance with 40 CFR 51.104. It is planned to submit all provisions of the proposal as a revision to the Commonwealth of Virginia SIP.

How to comment: DEQ accepts written comments by e-mail, facsimile transmission and postal mail. In order to be considered, written comments must include the full name, address and telephone number of the person commenting and be received by DEQ by 5:00 p.m. on the last day of the comment period. Due to problems with the

quality of facsimile transmissions, commenters are encouraged to provide the signed original by postal mail within one week. Both oral and written comments are accepted at the public hearing. DEQ prefers that comments be provided in writing, along with any supporting documents or exhibits. All testimony, exhibits and documents received are part of the public record. Please note this proposed permit is being concurrently reviewed by the U.S. Environmental Protection Agency.

To review proposal: The proposal and any supporting documents are available on the DEQ Air Public Notices for Plans web site:

<http://www.deq.virginia.gov/air/permitting/planotes.html>. The documents may also be obtained by contacting the DEQ representative named below. The public may review the documents between 8:30 a.m. and 4:30 p.m. of each business day until the close of the public comment period at the following locations: 1) DEQ Main Street Office, 8th Floor, 629 E. Main Street, Richmond, Virginia, 804-698-4070, and 2) the DEQ West Central Regional Office, 3019 Peters Creek Road Roanoke, Virginia, 540-562-6700.
